Applicant's Appeal Brief is still non-compliant. Section 41.37c requires "each dependent claim argued separately" to be listed in the "Summary of Claimed Subject Matter" and requires that "the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification by page and line number, and the drawing, if any, by reference characters. The time period for reply is as set forth in the action mailed 26 June 2006.
